United Cerebral Palsy (UCP)

For more than 55 years, UCP has been committed to change and progress for persons with disabilities. The national organization and its nationwide network of affiliates strive to ensure the inclusion of persons with disabilities in every facet of society—from the Web to the workplace, from the classroom to the community. As one of the largest health charities in America, UCP's mission is to advance the independence, productivity and full citizenship of people with disabilities through an affiliate network.

UCP strives to build a better world for tomorrow—today. The national office, located in Washington, DC, provides key services for its affiliates. UCP's national office also serves people with disabilities and others through the development of forward-thinking programs, information and referral service, legislative advocacy, technology initiatives and research. Direct service provision for people with disabilities and

their families is offered through UCP affiliates, who serve more than 30,000 children and adults with disabilities and their families every day through programs such as therapy, assistive technology training, early intervention programs, individual and family support, social and recreation programs, community living, state and local referrals, employment assistance and advocacy. Each affiliate offers a range of services tailored to its community's needs.

UCP is the leading source of information on cerebral palsy and is a pivotal advocate for the rights of persons with any disability. In fact, 65% of people served by UCP have disabilities other than cerebral palsy.

UCP is one of the nation's most efficient charities, with a systemwide average of 85% of all revenues going to programs.

Are you interested in making a difference and helping people with disabilities?

UCP has a variety of ways for you to get involved: gifts, sponsorships, donations, and financial planning.
